### About how many glasses of wine come in one custom bottle?

Based on an average 5oz. pour per “glass”, a 375ml bottle contains approximately 2 “glasses” of wine and a 750ml bottle contains approximately 5 “glasses” of wine.

### How long does it take to complete a custom label order?

**A minimum of 6-8 weeks processing time is required** from the date the order is placed to the date of desired pick-up or delivery. Photos or artwork must be provided **at the time of order**.

Please allow a minimum of 1 week for the design and label approval process – your timely attention is required.

If the artwork approval time line is not met by the customer, Adirondack Winery will not guarantee the customer’s desired due date.

### Is there a minimum order requirement?

To qualify for above pricing, the order minimum for 375ml “Split” bottles is 72 bottles. If you wish to order less than 72 bottles please email [ilovewine@adirondackwinery.com](mailto:ilovewine@adirondackwinery.com). You may place an order for multiple wine types at any quantity, provided the 72 bottle minimum is met for each wine type desired. Quantity pricing applies to wine types individually – wine types do not combine toward quantity total.

### Do I have to pay in full when I place the order?

You must pay in full at the time of order if you place an order of 96 bottles or less. For orders of 96 bottles or more, a 50% deposit is acceptable at the time of order, with the remainder to be fulfilled upon final design approval. A refund can be issued at any time up to the time of printing with the customer incurring a \$50 service fee.
